Harrison's Plurality In Indiana Estimated at 3,060.

EXCITEMENT STILL CONTINUES IN WEST VI GINIA,

But the Republicans are Likely to be Victorious With a Mejority of About 600, Even North Carolina May Go Republican-Cleveland Tells How It Happened. Election Notes.

INDIANAPOLIS, Nov. 12. - Nelther of the state committees are receiving any more re turns, the indications pointing to about 3,000 plurality for the Republicans. Gen. Harrison was called upon by a committee representing the Commercial club, of Cmand an invitation extended for him to attend the annual dinner at the Queen City club, November 30. The general took the matter under advl-ement.

It estimated that the campaign in this state cost \$500,000, two-thirds of which was born by the Bepublicans.

The official canvass of the vote in Marion county gives Cleveland, 17,517; Harrison, 17,139. Bynuin, for congress, carried the by the ordinary diplomatic channels? county by a plurality of 377. The only Republican elected in the county is Dr. Wagner, for coroner, whose majority is 41.

The Electors F om New York.

NEW YORK, Nov. 12 .- The Sun says it ls possible that two of the candidates for presidential electors from this state are elected. This result, if it has really been accomplished, is brought about by the fact that the electoral ticket given out by the labor party included the names of thirty-four itepublican electors, with the two labor electors-at-large at the head of the ticket, two of the Republican electors being necessarily omitted. It is thought that the number of Labor votes thus cast were sufficient to defeat the two Republican electors omitted from the Labor tickets, thus electing the Democratic electors at large. Such a divisum of the electoral vote in this state is not recalled by any polltician.

WHEELING, W. Va., Nov. 12 .- The excitment over the result of Tuesday's election still continues. Both partles figuring on the

slow-coming returns and claiming the state. Forty counties poiling 115,468 votes for president in 1884 show a Republican galn of 4,046. The remnitting fourteen counties polling 16,689 votes will at the same ratio of gains give the Republicans a gain of 700, making a total net gain in the state of 4,845, which would give the state to the Republicans by 624 majority. Indications are that Atkinson, Flick and Smith, Republicans, are elected in the First, Second and Fourth congressional districts.

How the President Takes Defeat. NEW YORK, Nov. 12. - The Sun's Washurs to bear up wonderfully well under his misfortune. He takes the defeat philosophlenlly, but he has not learned the true philosophic view of it, if what he said to one of his callers expresses his exact views, for in conversation with that gentleman he attributed his defeat solely to the lavish and corrupt use of money by the Republicans. This upinion he reiterated repeatedly and with emphasis, and he evidently believes, or tries to believe, that his tariff policy, in the langunge of the day, 'was all right.''

Cincago, Nov. 12 - Complete returns from the state show that Gen, Harrison's plurality over Cleveland is 21,154, and that Governor-elect Fifer has a plurality of 11,954 over Palmer. The Illinois legislature will stand: In the senate, Republicans 35, Democrats 15, Union Labor, I. In the house, Republicans, 52, Democrats 71. Republican majority on joint ballot 30.

ment of the New York Star. It is thought by many that Gen. Harrisou's private secretary will be D. L. Alex-ander, of Buffalo, N. Y. Mr. Alexander is a lawyer, journalist, and an intimate friend

of Harrison. Sherman thinks that the Mills bill was chielly instrumental in defeating the Democratic party, because in reducing the tariff it made invidious distinction in favor of the

south and against the north. Maj. Braggins, chairman of the Republican committee of Cnyahoga county, bas been arrested for forging the name of Hon. W. G. Rose to notes calling for \$7,000.

Bragglus is in jail at Cleveland. The general sentiment appears to be that Blaine can have anything he wants. Adjt. Gen. Axline says that Bluine can be secretary of state or minister to England, and that are endangered.

Governor Foraker will be secretary of war. Harrison's political friends in Indiana have little to say regarding the next cabinet. It is not believed that Indiana will ask for recognition, nithough ex-Governor Hanna thinks that Porter should be recognized. Indianians think Quay may get a portfolio.

MEXICAN ENCROACHMENT.

Governor Euss Alarmed Over the Work of Grea er Engineers.

EL Pasc, Tex., Nov. 12.—The mayor and city connell of El Paso has taken action which is calculated to lead to important diplomatic correspondence between the United States and Mexico, in an official communication to the city council, Mayor Lightbody stated that Mexican engineers, acting under authority of the Mexicun government, were constructing embankments opposite Et Paso, ostensibly to protect the Mexican bank of the Rio Grande, which embankments, he believed, would cause the river to damage the American bank. Mcreover, he believed the Mexicans had already extended one of these embankments across the boundary, and were now working on American soll. He urged that linmediate action should be taken to stop this work by force if necessary.

The council decided that the imyor should telegraph the facts to Governor Ross, and a message was sent, stating that the work is being prosecuted with the Intention of changing the channel of the river. "Unless the work is at once arrested," says the mes sage, 'not only will the frontier be arti ficially changed, but serious injury will be inflicted on Texus land owner . CIGARMAKERS SHUT OUT.

PHILADELPHIA, Nov. 12 .- A few weeks ago the cigarmakers employed at the factory of Roig & Langsdorf, in this city, went on a strike, owing to some difference with the firm. Roig & Langsdorf requesting that the firm meet the representatives of National trades assembly No. 225 so that au amicable settlement of the difficulty might be made.

To this note Messrs, Roig & Langsdorf in the afternoon sent a reply to Secretary Hayes, of the general executive board, in which, after thanking him for the courteous tone of his note, they say they cannot see any reason for a conterence as suggested. "In point of fact," their reply continues, "our employes are satisfied with us and we with them, and we are not aware that there is anything to discuss. Presumably you are acting on imformation received from gentlemen who were formerly in our employment, who left us without cause and whose places voluntarily abandoned by them have been filled. Much as we reg. et any loss or lnconvenlence they may suffer, we are powerless to help them.'

THE SEVENTH VICTIM.

Details of the Latest Whitechapel Horror. Sir Charles Warren's Offer,

LONDON, Nov. 12.-The seventh ghastiy Whitechapel murder has created the wildest excitement. The deed seems to have been the most atrocious of all. Tue place is within a quarter of a mile of the other murders. and almost within sight of London hospital on Commercial road.

Dr. Gabe, who visited the squalid room in which Mary Jane Kelly, alias Fisher, allas Glager, had lived, and where her body was found before it was cold, sald that in all his experience in the dissecting room never had he seen such ghastliness. The corpse lay, nearly naked, on a blood engored woolen mattress. The victim's hair was flung upward on the pillow, and matted with gore, as if the murderer had there first wiped his hands, and the next his telltale fingers. The nose and ears were sliced away; the throat was cut from left to right, so that the vertebræ alone prevented a headsmanlike sover-

The flesh on each side of a cut on the median line was carefully folded an inch or two away from the cut, and from the hlp to the ankles the flesh was shredded more or less with an apparent savageness of purpose. It must have been the work of perhaps a full half-hour.

He spoke several times to the girls in the neighborhood, and he carried a mysterious black bag containing 'something the ladies don't like."

Sir Charles Warren, commissioner of the Metropolitan police, has offered a free pardon to any accomplice of the murderer of the last victim of the East End who will give information leading to the capture of the flend. DUN & COMPANY.

The Volume of Legitimate Business Wonderfully Well Maintained.

NEW YORK, Nov. 12.-R. G. Duu & Company's weekly review of trade says: The volume of legitimate business has been wonderfully well maintained during the past week, as during the whole political campaign. And this is the most remarkable because, in the months preceding those of political excitement, speculation had been unusually active and extravagant. There has come a more confident tone in many branches of business, and a larger trade with improving prices usually anticipated as a result of the postponement of very many operations and purchases in past months.

In the reports from interior points generally it is noteworthy that the aggregate of transactions was large for only five working days. At all cities reporting mouey continued in fair or active demand, while scarcely nny complaint of stringency is heard, and collections, though somewhat interrupted, have been on the whole satisfaotory, with improvement noted in several cases. The large volume of currency in circulation, together, with the temporary inactivity of speculation, explains the matter. The circulation of all kinds of money renched \$1,517,871,668 November 1, being \$41,500,000 larger than a year ago. In the past week, the treasury has also paid out \$1,700,000 more than It has taken in.

The report of anthracite and bituminous furnaces in blast showed a weekly output of 128,340 tons, against 119,189 a month ago and 130,487 a year ago. In output of charcoal iron the increase of about 7 per cent, in the month of October makes the weekly output only 112 per cent. smaller than at this date last year. The increase of late has been mainly in southern production. No change in prices is recorded as yet. Steel rails have been at very low figures. In all 40,000 tons were taken by the Vanderbiit roads and as much more by other companies, and it is reported that large orders can yet be placed at not more than \$27.

The wool market has been decidedly more active and stronger, but while a more confident feeling prevails in the dry goods trade, improvement in orders of purchases is not vet observed. Cotton goods have been firm, with a strong undertone. The boot and shoe trade is firm and actual deliveries this year thus far have been 7 to 5 per cent. iarger than last year, with net prices averaging a shade better, while stocks are unusually narrow. The coke and coal trade is very active at Pittsburg, and the output of anthracite coal, 913,849 tons for the last week, has been for the year thus far 31,161,560 tons, against 27,879,463 last year, a gain of nearly 12 per

Exports fell 6 per cent, below last year's at New York, while imports here in October were about 4 per cent, below last year's. Prices of the chief exportable products still rule so high as to prevent a free movement, and wheat has advanced during the past week about one cent, with sales of 31,500,000 bushels; corn has advanced two and a fourth cents with sales of 5,500,000 bushels; oats have advanced five eighths of a cent; pork twenty-five cents per barrel; oil one and a fourth cent, with small trading; cotton onesixteenth cent, with sales of 365,000 bales: and coffee has remained steady, with sales of 234,000 bags during the week. Transactions in stocks have not been heavy; prices have scarcely changed at all in the aggregate.

The business failures during the past week number 256, as compared with 275 last week, and 254 the week previous. For the corresponding week of last year the total was 245.

The impressive ceremony was performed by Rev. W. T. Spears, of the Presbyterian Church. It was an original service lengthy, obligatory and solemn.

The bride, who is a beautiful demi-blonde of an attractive type, never looked more lovely than in her wedding gown of ivory white faille Francaise. The long court train was laid in graceiun folds and finished with heavy rich ruche. The entire front of the dress was point d'Alencon lace and the sleeves were a la directoire. From her coffure floated a long veil of white tulle over her entire figure. Her glaves were of undressed kid, her ornaments diamonds.

The maid of henor, Miss Mamie Caldwell, looked charming in her snowy costume and graceful train, the duplicate of the bride's. She was the bride's e-cort, preceded by the boy and girl torch-bearers, Frank Lawwill and Florence Robb. Just at the critical moment, when that taystical met morphosis took place and Miss Piper became Mrs. Parker, her muid of honor removed the veil that concealed her lace and handed her a higher to Mareschal Neil rosebuds. At Manchester, twelve miles above Maysville, the huge fish struck the bow of the little steamer Handy, breaking her knee and springing a leak. So great was the shock that it threw the pilot out of the texas. The force of the collision stunned the fish, which came to the surface. Massrs. Owens and Riley pulled their pistois and fired five shots each into the monster, killing it. They then towed it back to Maysville, where Mr. Warren cut the fish up and sold it to dealers. The fish weighed 680 pounds and the steaks ent off were as big as the head of a barrel.

In the stomach of the fish were found a small skelelen, three gold watches, four big afford an occasional supply for the table hog-chain nuts, weighing five pounds each, ELIZABETH M., widow of Archibald and a leather pocket-book containing \$35 while, the acid of the fish's stomach taking all the tan color out. One Hundred and Sixty Miners Lose Their Lives.

AN EXPLOSION OF BLACK DAM? SUP-POSED TO BE THE CAUSE.

The Unfortunate Men Entombed to the Shaft Over One Hundred Feet Below the Surface-Heartrouding Scenes About the Month of the Mine-Frontenac, Kausas, the Scene of the Catastrophe.

KANSAS CITY, Mo., Nov. 12.-As 160 miners were preparing to leave shaft No. 2, at Frontenac, a suburb of Pittsburg, Kan., Friday evening, a terrific explosion took place, completely shattering the shaft and entombing the men 112 feet below the surface. Only two men, who were in a car coming up, managed to escape.

The explosion was so violent that it broke windows in the village of Pittsburg, hurled dishes from shelves and demollshed chimneys. Soon afterward one of the two men who had escaped reached the village with tidings of the disaster.

Horses were quickly harnessed to wagons, and in a few minutes the villagers were hur rying through a flerce snow and sleet storm which was raging.

At the mouth of the mine the tremendous force of the explosion was apparent. There were huge seams in the earth and the large timbers of the hoisting apparatus were shivered and burned. Foul gases were es-

Blg fires were bullt near the mouth of the plt, and besides these blazing piles the women of the entombed niners placed their children while they themselves tried by all kinds of entreaties to induce the miners from other shafts to enter the pit and rescue their rela-

One rescuing party started down the shaft at 7 o'clock, but was forced to turn back, owing to the foul air. Another was made at 9 o'clock, but the plucky rescuers were forced te abandon their work. They could hear no sound from the chambers below, and this leads old miners to believe that all the men in the shaft have perished.

Those who started down the shaft early in the evening saw that the shock has destroyed whole drifts, and that it is probable that the men in the lower levels are burled beneath tons of slate. Black damp is supposed to have caused to explosion. Most of the miners at these shafts came originally from Illinois and Pennsylvania.

Emigrant Rate War Again.

NEW YORK, Nov. 12.—The blg commissions which the trunk lines are offering hotel keepers and others outside Castle Garden, in order to force the Lackawanna & Ontario roads to terms are likely to reach greater proportions than announced in Friday's papers. There were stories yesterday that they had offered on St. Paul \$5 on the \$10 fare, and \$5 out of the \$11.25 to Kansas City. It was reported that the trunk lines have determined to force matters to an issue

as soon as possible.
